

European Event

You are invited to attend Industrial Technologies 2012. The NANOfutures workshop will take place on 20th of June. <http://industrialtechnologies2012.eu/eve...>

Nanofutures today

The NANOfutures community has experienced a significant growth. 682 members are involved, more than 30% from industry, 10 working groups are running and via a wide range of regional and local partners the opportunities of business and project building are growing. Please check if your local network is listed at <http://nanofutures.info/regional-contacts>.

Please check your [personal profile](#) and maybe update branch and keywords. You will then be found more easily by industrial and academic partners looking for solutions. Don't hesitate to contact us if you are missing a specific category.

To support you in using NANOfutures for your daily work and play an active role in the working groups we offer the Q&A help info <http://www.nanofutures.info/help>. We invite you to contact us directly at any time via email, or online using nanofutures day 03.04. via Skype phone or chat using aereinhardt.

Your NANOfutures Communication Team

PS: The NANOfutures a.s.b.l is the backbone of NANOfutures and of course it's open for all interested to become a member: Please contact t.zadrozny@mail.be for details
